

What even is a newspaper?

By: Supreme Lord Kramer of Yondertown

According to a teacher that I had one time a long time ago, it's a paper on which news is printed. But, it is also used in reference to the company that published said news on said paper.

However, in recent times, because the internet, the understanding of newspapers has changed. Now a newspaper is just some people that write stuff and then publish it. Wow!

Perchance.

A wise man once said "Bogos binted?" and sometimes I wonder what he meant by that.

That guy Hans from Frozen was a real dick. My psychology teacher said that he has Antisocial Personality Disorder.

I do not like lemon pastries. They never taste good.

Therefore, maybe.

In conclusion, thank you, and I'll see you yesterday. 3<
